The Sola story

For 100 years we have been producing a wide range of high quality products with a strong focus on durability and sustainability. Within our family run business a personal approach has been the cornerstone for the way we serve

our customers. As an innovative company we have found the perfect balance between quality and price and we take pride in the fact that our products are used all over the world. For every occasion and every meal we have

a suitable product. Big or small. Extensive or light. At sea level or 33.000 feet in the air. At home or abroad. Sola is there for every meal!
Whatever you eat, wherever you eat, enjoy it with Sola.

About Sola

Since 1868, the Gerritsen family has played an important role in the production and supply of silverware. Sola was founded in 1922 by Mr. M.J. Gerritsen. For generations the Sola brand mark has become synonymous for exceptional and durable cutlery. Nowadays, our company is managed by the 4th generation of the Gerritsen Family.

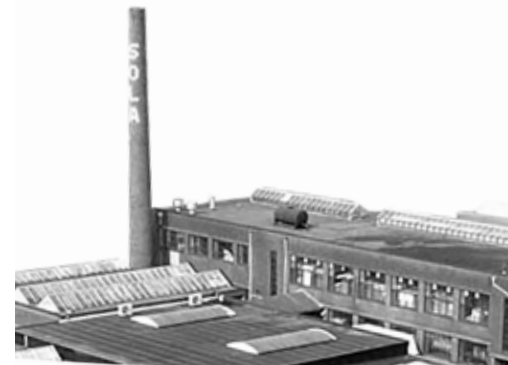

Sola is a key player in manufacturing and distribution of cutlery and tableware, reaching various sectors within the hospitality industry, including hotels, hotel-supply companies, restaurants, airlines, and cruise lines. Our

cutlery range consists of diverse styles, from classic to contemporary in a mirror, satin, vintage or PVD finish in different price levels. New designs inspired by the latest trends are regularly being introduced.

With a customer-centric approach, Sola aims to provide excellent quality products at competitive prices. All products will come with a 10-year guarantee against production and material defects, emphasizing our commitment to customer satisfaction.

Sola is proud to supply their products to 125 countries. All designs are stocked at different warehouses all around the world to ensure a fast and smooth delivery.

Over the past century, Sola has evolved into a significant international player, expanding production facilities to Asia to leverage competitive pricing through high volumes and longstanding relationships with factories. Strict

quality control processes, overseen by Sola QC department, ensure that raw materials meet international standards, and that the finished products meet the required quality standards.

By putting customers at the core of our business, Sola strives to understand and meet their needs. Leveraging experience and know-how, our company provides solutions that align with customer requirements.

Cutlery Design Solutions

Our team of design experts have many years of experience delivering service-ware solutions to the travel and international hospitality markets. We understand your business challenges and are fully equipped to provide a complete service to guide and deliver you with solutions that will exactly fit your needs and your budget.

Contemporary cuisine and the demands of the travel industry are more complex now than ever. Pressures on environmental considerations, value and design trends are tremendous. At Sola The Netherlands we set the trends others follow, we design to your needs and we deliver the best value whilst preserving the strongest considerations for environmental sustainability.

Our coverage is truly Global. Delivering to 90+ of the world's airlines, a large market in Cruise and Hospitality sectors around the world, we can deliver our services seamlessly to you wherever you are.

Custom Tailored Solutions

- Every customer has an individual need. We are able to tailor designs to your exact requirements.
- We have the latest technology at our In-house design studio.

International Customer Service

- A team of multi-lingual specialists provides personal customer service world-wide.

Quality

- Our products use high quality 18/10 and 18/0 stainless steel only.
- Silver-and gold-plating are available options.
- New features are coloured coatings.

Value

- With 100 years of experience, we understand the cost pressures in the travel and hospitality industry.
- We work with you to deliver exactly what you need at a cost you can afford.

Guaranteed Global Delivery

- With distribution in Europe, Middle East, Asia and the Americas we cover the globe to any volume.
- Fast and guaranteed on-time delivery.

Environment

- Working together with AMFORI, we ensure everything we do is with environmental considerations and compliance with the latest regulations.
- We have a range of products able to replace the need for single-use plastics.

Hallow handel

Sola is a specialist in the production of hollow-handle cutlery. As weight reduction becomes more important than ever, we can create cutlery with unique designs that meet these requirements. Producing such lightweight cutlery demands specialized knowledge, a field where Sola stands as the market leader. Our innovative approach and expertise ensure that every piece is crafted to perfection, blending functionality and style while keeping weight at a minimum. Our expertise and knowledge sets us apart in our competitive industry, meeting the expectations of our loyal customers who value both form and practicality.

Light weight cutlery

On the ban of single use plastics 2021

The ban on the use of single use plastics enforced in various areas of the world is a trend that is set to grow. As part of our environmental awareness policy addressing the challenges to the travel catering sector, SOLA has anticipated this trend with the introduction of our innovative solution to all plastic/disposable cutlery restrictions.

SOLA has the solution

An affordable, totally environmentally friendly solution that is immediately available and is both recyclable AND reusable. Your choice.

Steel is the most recycled material on the planet, incurring 50% less emissions than manufacturing from virgin ore and growth in the use of stainless steel is the highest of any material. Most importantly, it is 100% recyclable, reusable, extremely durable, safe and easy to maintain.

Armed with this knowledge Sola Netherlands

has designed and engineered the world's lightest and most durable range of stainless steel cutlery specifically intended to address the plastic single use cutlery replacement effort.

Cost effective?

It is possible that reusable, rotatable or 100% recyclable high grade stainless steel can possibly be as cost effective as the plastic alternative? The answer from Sola Netherlands is Yes. With our super-light designs, at least 60% less weight than regular stainless steel airline cutlery, the cost savings are multi-faceted and take into account energy savings, environmental costs and long-term sustainability of both the product and the environment that it is used in.

What is this ultralight cutlery?

Sola believes the only reasonable and sustainable way to replace plastic cutlery is

replacing this by a stainless steel version. The advantage of using stainless steel is that it is a natural product. The total production process is cleaner versus plastics, especially due to the recycling. Stainless steel is a circular/fully recyclable product. If left in the environment, it will return back to its original natural shape, without polluting the air, water or soil. Stainless steel is a rotatable product and has a more luxurious look compared to plastics.

We have developed a complete range of 4 cutlery designs that can be the solution for you. They are ultra-light weight, able to be produced quickly in mass volumes and can be used as a rotatable or disposable alternative.

You can navigate through this special section of our website and see all the characteristics, specifications and options. Please reach out to your regular contact person and receive all the data you need.

Light weight cutlery

- Each design can be packed in a paper pouch which can be fully customized.
- All cutlery can be washed and sanitized for immediate re-use.
- Add a paper napkin, toothpick holder or stirrer
- This cutlery can also be produced in a thicker 1.0mm material

Oven Racks and Trays

Sola has designed oven racks using a high-grade aluminum material providing durable construction and strength. We offer the most common Atlas oven racks for 8 or 10 trays. Other sizes can be made on request to fit into the onboard ovens.

Benefits of the Sola oven racks

- Oven racks are designed and produced using high-grade aluminum sheets and extrusions for bodies and frames.
- We offer the most popular ATLAS oven rack for 8 or 10 trays.
- We offer the KSSU oven rack as well.
- High-quality aluminum trays for oven inserts can be purchased with the oven or separately.
- Special tailormade sizes are available.

Design features

- Rectangular-shape rack with 8/10 slot-in trays or insert that allows for good distribution of heat within the rack.
- Rack body is formed from a single joint piece with 7/9 pairs of runners cut-out on two sides which is an integral part of the body.
- The top handle bracket is fixed on the under-surface of the top panel

- The trays or inserts are designed with rounded corners and pre-set inside the rack

Overall dimensions

- Atlas: Rack – 225.5 mm W x 381 mm D x 410.5mm H
- Atlas extended: Rack – 225.5 mm W x 512 mm D x 410.5mm H
- KSSU: Rack - 255 mm W x 362 mm D x 380mm H

Material

- Rack – Natural Anodized Aluminum AA6082-T6 of 1.2 mm thickness.
- Tray – Natural Anodized Aluminum AA5052-H32 of 1.0 mm thickness.
